Hello, dear readers! As you all know, our time is the time of innovations and the epoch of an excellent life. In this era of modern vehicles and high-tech, there's an unresistant temptation to travel somewhere. I want to focus your attention on our pretty town.

This place is an amazing example of modern innovative ideas and ancient motives' synthesis. You can gaze not only on skyscrapers, surrounded by cars, caters and buses, floating in the air, but medieval castle and several towers too, which remind you about the honourful past of the town. The one more thing that will take^{DO} a tourist's breath is a new interactive 4-dimensional software, which is a special program integrated into a little chip ~~of~~ on the glasses, which will allow you to travel in the town with a virtual guide, whom you choose deliberately. Spending some time in the place will allow you to learn something new about our customs, eat our famous sweet pancakes and 'crendels'. That will be gripping to go on a naval factory, which is a main center of business in our town. Five years ago, there were firstly made 'Air Caters'. You may learn about our prestigious University of IT, which has been built ten years ago.

Taking everything into account, I absolutely recommend you to visit our town. If you want to visit our town. If you want to experience some medieval charm and enjoy modern, fascinating infrastructure, this place is a perfect choice! Are you interested?
